

Oxfordshire Pharmacies offering free emergency contraception to under 18's

If you've had unprotected sex or had a mishap with your normal contraception, for example the condom split or you were sick after taking your contraceptive pill, emergency contraception, sometimes called 'morning after pills' can help to prevent unwanted pregnancies.

Emergency hormonal contraception (EHC) can be taken up to 72 hours after unprotected sex. The sooner it is taken the more effective it is

- Within the first 24 hours after unprotected sex it is 95% effective.
- Within 48 hours it is 85% effective.
- Within 72 hours it is 58% effective.

This is a list of pharmacies in Oxfordshire that provide free emergency contraception to young people under 18. We advise that you ring the pharmacy before going in to check that the pharmacist is on duty and will be able to supply you with EHC.

This list is several pages long, please use page down to view the full list. This list was last updated in November 2011.
